DOIMO INTERNATIONAL

DOIMO INTERNATIONAL

WORLDWIDE LEADER IN THE FURNITURE FIELD

In 1948 the Doimo family started business by opening their first wooden furniture production unit and since then their firm will and determination has transformed all their efforts into the most important Italian group in the furniture field composed of 27 companies in continuous expansion and in constant pursuit of new technologies, products and furnishing solutions.

In consideration of specific strategic choices, the Doimo Group, with a total of approx. 600,000 square meters of buildings, is successfully operating in both office and home furniture with its integrated features in terms of complementarity and completeness and thanks to its Contract Division is able to provide a prompt and complete answer to the specific needs of every type of consumer and structure, such as hotels, residences and communities.

Common to all the companies are the activities of marketing, research and development, and the technical-creative skills which result from the experience of over 1500 employees.

High quality standards are guaranteed also by the ISO 9002 certification for every brand.

Besides the traditional markets where the Group has been working for many years, the Doimo Group is active on markets such as the Middle and Far East, Oceania, Africa and South America.

DOIMO
ARREDAMENTI DEL SONNO

As the export reference point for various brands of the home sector, Doimo International Groups provides customers with all the services needed for product line access without having to multiply communication activities with each supplier.

This enables foreign customers to rationalise all their ordering activities minimizing all the various costs coming from consolidation, dispatch and import activities. Every customer is taken care of directly by a single area manager, a single business operator and logistics operator. The staff consists of 37 employees working in 4,500 square meters of premises with an uncovered surface of 10,000 square meters and the main show room of 6,000 square meters.

Inaugurated in April 2002, Doimo Domus Interiors Gallery gives visibility to the various furniture solutions and provides also adequate space for information, marketing and training. Visitors can move around the 6000 square metres of display space with the assistance of highly qualified staff.

4. DOIMO IDEA

Newly established (in 2007) to meet specific complementary needs, Doimo Idea can count on the considerable experience of the Doimo Group both in the Italian and foreign markets. The wide range of approx. 2.100 available products makes this Company a manufacturer of furnishing complements and not just a producer of complementary products.

The style of furniture involves the use of a wide range of materials such as wood veneer or solid wood items, mat and high gloss lacquer finishes, metal and leather.

The collections of tables, chairs, tv units, mirrors, console and coffee tables are exclusively made in its productive unit of 10.000 covered square meters with the co-operation of a staff of 28 highly specialized employees.

As a natural evolution of the market and of the customers' needs, Doimo Design was created in 1981 as a division of Doimo Arredamenti, the first Company established by the Doimo family. Its lines of products, such as wardrobes and beds in wood veneer, matt and high gloss lacquer finishes, are designed for refined and demanding customers who seek in products a perfect combination of quality, functionality and style. The greatest care for details, functionality and refined style are the distinctive features of a products range that represents the highest expression of quality and technological research. The Company staff amounts to almost 95 people working in 22,000 square meters of buildings plus an uncovered surface 20,000 square meters.
